Re: Michelle Matthews

To Whom It May Concern:

Michelle conducted her internship in energy healing at this office from August to November of 2005. I observed her to be both professional in her manner and caring within the framework of a clinical session. She also demonstrated clinical competence as evidenced by the positive feedback from her clientele.

Patients of mine that had sessions with Michelle had very limited, to no experience with energy work. As a whole, they reported feeling more relaxed after a session, and noted improvements in other individual ways. Most felt that they would return when the need arose.

I believe Michelle would be a valuable addition to your team of health professionals.

Please contact this office should you have any questions.

Sincerely,

Lincoln Kamell, DC, CCSP
