Dear Michelle,

Thank you so very much for coming to L.A. and participating in our Expo adventure! It was so great hanging out with you... and I really appreciated all your support turning people on to my work. I think people really enjoyed your enthusiasm and all that you had to share. Although you and I have only connected fairly recently, I really trusted your ability to impart a sense of what I'm all about to the people who came up to our booth. I felt very supported and safe enough to leave the booth in your capable hands.

Often I stay at the booth "too long for my own good", in the name of not missing anyone and being able to speak to as many people as I can. But since I need to be "up" and "on" for my speeches, it's very important to have people I can count on to get the job done, and handle people well.... and you did a fabulous job. God bless you!!!

We may not have met many actors THIS time, but I feel certain that we planted seeds that can only sprout and grow in the future. I'm sure we're not done in working together.. but that we've only just begun!!!

I really think we helped many people at the show, and your energy was definitely a significant part of that!!! I hope you enjoyed yourself and benefited from the extra clearing I issued for you. To be continued, I'm sure..... thank you, my friend!!!

Sincerely,

*Phyllis*
