To Whom It May Concern:

My name is Raj Shah and I would like to discuss energy treatments that were administered to me by Michelle Matthews. I came to Michelle in January in pretty bad condition having daily battles with chronic fatigue and headaches. A major source of the above conditions was stress related to my occupation. I met Michelle for an initial session where she introduced me to a product called the Rejuvenizer, which works to clear the electromagnetic field surrounding your body. Michelle carefully explained to me how the product worked and what I could expect as far as likely results from the product. Within the first few days of using the Rejuvenizer, I was much better able to keep my energy from evaporating away and was able to think with a clearer mind. The two subsequent energy healing sessions that I had with Michelle had an even more dramatic effect. Michelle has been working with me to rebalance energy in my third and seventh chakras. Her energy healing techniques combined with my personal work with increased exercise and meditation have greatly reduced any signs whatsoever of the fatigue that has plagued me for the last couple of years. I felt extremely balanced, focused, and energetic after the most recent session that we had. Michelle has truly helped bring back a decent quality of life for me and I am so very thankful to her for that. Lastly, her professionalism is second to none. I find her to be one of the most caring and compassionate healers that I've ever worked with. She is very passionate about her work and that is really apparent with the high level of satisfaction of her clients. I count myself as very fortunate to be one of the people whose life has been touched by Michelle. I believe she would be a very fine addition to your spa.

Sincerely,

A handwritten signature in cursive script that reads "Raj N Shah".
